## COMPANY OVERVIEW

Axis Dynamic Resources (ADR) specializes in the design, installation, and maintenance of high-performance cellular indoor network cabling systems. We leverage our expertise in construction services, event planning, and comprehensive project management to deliver seamless and reliable connectivity solutions that meet the unique demands of government, state, and county agencies.

## SERVICES OFFERED

### *Cabling and Wiring Solutions*

Cable installation (CAT5e, CAT6, CAT6a, Fiber Optic), termination, and certification; CAD drawings; Wi-Fi network design, planning, troubleshooting, and performance enhancement; network switch, cabinet, and cable tray solutions; rack and stack services; and cable decommissioning.

### *Construction and Architectural Design*

Building renovations, repairs, and maintenance; roofing; welding; drywall/plastering; tiling; flooring; and painting.

### *Event Planning and Support*

Custom concepts and design; vendor management and coordination; scheduling and logistics; budget management; and marketing/promotion.

### *Project Management Support*

Project planning and consultation, budgeting, scheduling, risk management and mitigation, quality control and assurance, and communication/stakeholder management.

## BRAND DIFFERENTIATOR

ADR bridges the gap between the personalized attention of a boutique firm and the extensive resources and global reach of a larger organization. We provide our clients with expert solutions, delivering tailored designs, installations, and services with the meticulous care and attention to detail of a smaller company.

# Past Performance

## **Food and Drug Administration | HHS** ***Nationwide Infrastructure Wiring IDIQ***

ADR provided infrastructure premise wiring for the delivery of Information Technology (IT) services and Telecommunications services to FDA offices located across CONUS. ADR provided installation of passive infrastructure wiring (CAT6, CAT6a, and Fiber Optic) and associated hardware (data racks, data cabinets, ladder racks, cable management, patch panels, patch cables, wall plates, jacks, fiber cable, and fiber media convertors) to support the voice (VoIP and legacy) and data networks (configuration of Wireless Access Points), including various network resources (printers, copiers, FAX Machines, white boards, postage meters, video teleconferencing (VTC) equipment, flat-panel TV monitors, overhead paging systems, and audio/visual equipment).
